Leah Lucas
Web Developer

`<///////`

About me:

Hey, I'm Leah Lucas—a full-stack developer with a *flair* for design and a knack for turning code into something beautiful. I love making tech feel human, creating websites that are as fun to use as they are to build. With a mix of software engineering skills and a creative background, I design with purpose and code with heart. When I'm not deep in code, you'll find me reading a book, studying, exploring with my camera or brainstorming my next big project. Let's make something awesome!

Education:

ASU | Full-Stack Coding Bootcamp
CAC | Courses in Computer Science
EVIT | Photography and Media Arts

Contact Information:

Address: 601 S Shirely St E108 Tacoma, WA
Phone: (253) 377 7879
Email: LeahLucas1992@gmail.com

Skills:

• HTML5, CSS3, JavaScript
• Python, Java, C#, SQL, NoSQL
• React, Bootstrap, Node.Js, Angular
• RESTful APIs, AWS
• UX/UI Design
• Adobe Creative Suite (Photoshop, Illustrator)
• Responsive Web Design
• Git/GitHub
• Basic SEO

Work Experience:

Software Engineer - Corsan Tech (Remote) | Jan 2023
• Built full-stack web applications using JavaScript, React, Angular, Node.js, and databases like MongoDB and MySQL..
• Optimized performance by integrating APIs, ensuring responsiveness, and fixing technical issues.
• Collaborated with teams to develop scalable solutions and maintain clean code.

Advanced Coder – Outlier AI (Remote) | Mar 2024:
• Trained AI models by providing expert feedback on coding concepts.
• Reviewed and optimized AI-generated code in Python, Java, JavaScript, and C++.
• Improved system performance by refining RESTful APIs and distributed systems.
